Dated 28-6-1943

[Despatch Abstract.]

Industries - Sericulture - Development of Mulberry cultivation - Kollegal - Remission of assessment in 1944 Season - Sanctioned.

C.F. 32 (a).

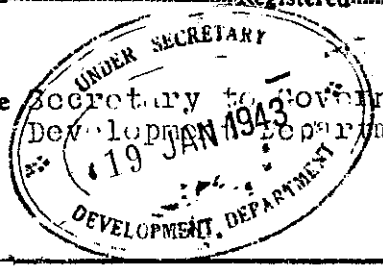
Department

From (Name) P.Madhava Menon, M.B.E., I.C.S.,
Designation Director of Industries and Commerce,
Station Chepauk, Madras.

Received Registered

To

The Secretary to Government,
Development Department.



Enclosures:

No. 28-D/45 dated 17 January 1943.

Sir,

Sub: Industries - Sericulture - Development of - Expansion of acreage under mulberry cultivation - Remission of the entire assessment.

Ref: G.O.No.248, Development dated 21st August 1942.

In paragraph 3 of the G.O. cited above, sanction was accorded to the grant, to the ryots, of loans under the Agriculturists Loans Act at the rate of Rs.25/- per acre of mulberry to be newly cultivated in the season in 1943 and in 1944. It has been pointed out that Government have not, however, provided in paragraph 2 for the remission of the entire assessment for a period of three years on the area to be newly brought under mulberry cultivation in Kollegal (Coimbatore District) during the season 1944. In the circumstances, I request that the G.O. quoted above may be amended so as to admit of

NOTES

Industries – Sericulture – Development of mulberry cultivation – remission of assessment in land.

1088 from the D.I.S.C. No 248/42 dt 17.1.43

The D.I.S.C. inquires inter alia if that the orders in para 2 of G.O. No 248 Dev dt 21.8.42 may be amended to extend the concession of remission of entire assessment for a period of three years to lands newly brought under mulberry cultivation in the season of 1944. As a reason for extending this concession to 1944 the D.I.S.C. states that grant of loans has been sanctioned to ryots for the areas to be newly brought under mulberry cultivation during that year. The grant of loan need not necessarily imply that the further concession of remission of assessment should also be given. ~~Freedom from~~ Remission of assessment is now allowed for a period of three years in respect of areas newly brought under cultivation of mulberry in the 1942 & 1943 seasons. The increase of 6000 acres in 1942 and another 6000 in 1943-44 was anticipated by the Sericultural Expert and in sanctioning remission for in para 2 of G.O. No 248 Dev dt 21.8.42 the loss of revenue on that account was estimated at Rs 63,000 at the rate of Rs 1-12-0 per acre. The extension of the concession of remission of assessment to areas newly brought under mulberry cultivation in the 1944 season, as suggested by the D.I.S.C. ~~may~~ it seems, to be considered only if the 12,000 acres anticipated by the Sericultural Expert have not been brought under cultivation in 1942 & 1943. If sufficient land ~~will be~~ has been brought under cultivation during these two seasons there would be

no case for incurring further loss of revenue by granting remission for 1944 also. The D.C. may be asked to report what area has been brought under cultivation in 1942 & 1943 and to state with reference to those figures whether any remission of assessment to encourage cultivation of mulberry need be granted for the season of 1944. Subject to orders a draft Memo is submitted.

three years from the date

The Question may perhaps be deferred for the present and the D.C. asked to report early in 1944 whether with ref to the acreage under cultivation then, further remission of assessment for a period of three years on new lands brought under cultivation in the season 1944 will be necessary.

The case may be sent to Rev and Fin Depts.

Uhs 4.5.43

Supt.

for remarks

1. explain delay.
2. was this shown in D. bud-
3. put up D. bud- time 24 hrs
5/5/43.

OO 4.5.43

It seems a bit late early to consider now about remission in 1944. The D.C. may perhaps be asked to submit proposals, if still considered necessary, early in 1944, giving details about the extent already under mulberry cultivation and the extent expected to be brought under cultivation

seen explns
8/5/43.

5/5/43. Ad. S

The Dept Knows beforehand tax Cultivators that if he cultivate mulberry in 944 on land on which mulberry has not grown in previous years, the assessment on the land will be remitted for a period of 3 years. He cannot time & make up his mind He will have two fields cultivating in Kharif next year & unless we take steps in time & ensure that there is an adequate area under mulberry we will not have enough

Colours & Predictive failures. The Composition in Kollegal is very unsatisfactory at present. It may have good & sound leaves for mulberry cultivation in 1944. It may also appear & remit Government for a period of 3 years in respect of areas newly brought under mulberry cultivation in that year.

Rev 2.in 7/5/43

To 21. Please see the notes above. Revenue Deptt

2. The Govt. have already sanctioned the remission of the entire assessment for a period of three years on the area to be newly brought under mulberry cultivation in the Coimbatore district during the 1942 & 1943 seasons. The loss of revenue involved by this sanction was Rs 63,000. The question of receiving from the Govt. of India half of this loss was separately under consideration in Development deptt.

B

3. For orders whether the suggestion of the Director of Industries & Commerce (which is supported by Development deptt) to remit the assessment for a period of three years in respect of areas newly brought under mulberry cultivation in 1944 (in Kollegal tk) will be accepted. The loss of revenue involved has not been repeated. The file may be returned / passed on to Finance deptt.

KM 13-5-43 13/5/43 The existing orders should perhaps stimulate the ryots to grow mulberry in 1943 season so as to avail themselves of the concessions. Unless the announcement of extension of concessions to 1944 at present will perhaps make them dilatory.

A report may perhaps be obtained from the D of C in January 1944 as to the extent of land brought under cultivation & the acre

4

any further concession entailing loss of revenue
M at a time when it will still be needed may be
considered then. I agree with D.S that
Govt Accts S we had better wait and get
a report from D.I.C. in Jan 1944 A

All such concessions have now to be considered
from the point of view of checking inflation by
reducing the purchasing power of the people. If the
loan scheme + other concessions already given are
sufficiently attractive and the profits from mulberry cultivation
are good, expenditure on a little more propaganda will be preferable
to giving away revenue

(Previous Mss need not be read)

Dept 10/6/43

In the G.O. at (N) the Government sanctioned the remission of the entire assessment for a period of 3 years

on areas newly brought under mulberry cultivation in Kollegal Taluk during the 1942 and 1943 seasons. In the same G.O. the Govt. sanctioned the grant of takkavi loans to the Kollegal ryots, who cultivated mulberry at the rate of Rs.25/- per acre in 1943 and 1944. But the concession of remission of assessment for 3 years was not extended to land cultivated with mulberry in 1944 season. The Director has proposed that the concession should be extended to mulberry cultivation in that season also.

2. My note supporting the Director's proposal are at pages 2-3 n.f. Revenue propose to call for a report in January 1944 as to the extent of land brought under cultivation before giving the concession. Finance have agreed with Revenue.

3. We had 14,560 acres under mulberry in Kollegal at the end of December 1942. The minimum acreage required according to the D.I. & C. is 20,000, and allowing a margin of 5,000 acres for partial failure of the crop owing to unfavourable season we have to aim at a target of roughly 25,000 acres to produce enough cocoons to feed the 2 Silk Filatures in Kollegal.

4. The suggestion that a report should be called for early in January 1944 might have been accepted if this were a peace time scheme, but it is not. It is of the utmost importance that the acreage under mulberry should be increased. Now that we have passed the Cocoon Control Order fixing the price of cocoons it is all the more important that inducements should be offered and offered in good time if we are to persuade the ryots to grow more mulberry. The leeway to be made up is considerable and to attain the area we have in view I consider it very important that the concession of remission of assessment should be extended to areas cultivated in 1944 also. The Director's proposal may be accepted.

GOVERNMENT OF MADRAS
Development Department.

PRESS NOTE NO 152,
Dated, M a d r a s, the 3rd August 1942.

The scheme for the supply of yarn to handloom weavers drawn up by the Government of India will be brought into force in this Province with effect from the 15th of August 1942. Under the scheme the entire process of distribution from the Mill to the Consumer will be controlled through the machinery of licensed dealers and the sale of yarn by anybody other than a Mill or a licensed dealer will be strictly prohibited. With effect from 15th August 1942 no person other than a person acting on behalf of a cotton spinning Mill, shall sell, store for sale, or conduct any business in cotton yarn unless he has a license in the prescribed form issued by the Provincial Yarn Commissioner. No such license is necessary for a person selling, storing for sale, or carrying on business in cotton yarn spun by him or the members of his family.

Applications for license has to be made in the form prescribed (FORM A). For the convenience of merchants, applications forms have been printed and will be available at the offices of Deputy Tahsildars, Tahsildars and Collectors. If a printed form is not easily procurable, there is no objection to sending the application in manuscript.

C.P. KARUNAKARA MENON,
Secretary to Government.

Office of the Director of Industries and Commerce, Madras, dated 17th June 1943.

Post Copy of Telephonic Message, dated 17th June 1943.

From the Director of Industries & Commerce, Madras.
To the Additional Under Secretary to Government, Development Department, Madras.

Sub:- Industries - Sericulture - Acreage under mulberry cultivation in Kollegal Taluk.

Ref:- Your telephonic message, dated 16th June 1943.

The Tahsildar, Kollegal, has reported that ~~as at~~ the end of December 1942, 14,568 acres were under mulberry The minimum acreage required is 20,000 ~~acres~~, A margin of 5,000 has to be allowed for failures of crop, rains etc. The total minimum area therefore

ADDITIONAL UNDER SECRETARY TO GOVERNMENT
17 JUN 43
DEVELOPMENT DEPARTMENT

16

-2-

required may be estimated at 25,000 acres.

Director of Industries & Commerce.

To Addl Secy. Dev. Dept

Please see Addl. Secy's note at ℘ 1 above and the report from the D.I.&C. at ℘s 5-6 above. In view of the large extent to be brought under mulberry, in order that the supply of cocoons might be ensured the extension of the remission of assessment to the 1944 season would also appear necessary. It may also be observed that the area brought under mulberry since the announcement of the concessions in G.O. Dev d 24 842 is not considerable. [At the end of March 1942 the area was 14240 acres at the end of Dec 42 it is only 14580 acres.] DTO

(N) 248 N

The D.I.O. has not offered any reason for this slow progress in the extension of the area after August '42. The latest figures of acreage under mulberry has also not been given. ~~For orders on the basis of the 4-5 lbs. of cocoons.~~

18.6.43 19.6.43 The figures given by the Dr. are not latest. He may be asked to give the latest figures and if possible the reasons for the slow progress in the extension of mulberry cultivation since the grant of the concessions last year.
